zLock™

cULus   CE

The world's first truly universal locking power cord that is 100% compatible with your existing plugs and receptacles!

The zLock™ family of locking power cords eliminates accidental and vibration disconnects. zLock™ does not require a special mating plug or receptacle in order to have a secure connection. Simply replace your existing power cord with zLock™ and enjoy your increased uptime and peace of mind.

zLock C14 – C13

zLock C14 – C15

zLock NEMA 5-15 – C13

KEY FEATURES

- The only universal locking power cord that locks both ends.
- Plug and play replacement for existing power cords.
- Requires no proprietary mating plug or receptacle on either side of the connection; Truly universally compatible with the standard devices used in IT equipment and PDU's.
- Available in locking C14 to locking C13, locking C14 to locking C15, NEMA5-15 to locking C13 and many other configurations.

- Available in 5 standard lengths; custom lengths upon request at info@zonit.com or 720.266.0050.
- Alternate colors available; contact Zonit Sales for more information.
- Every zLock cord is labeled with a serial barcode for easy system mapping.
- UL Listed (UL 817) and CE compliant (IEC 60320).
- zLock™ is also now available on µATS™, providing both locking inputs and outputs.
